

# Metal Enclosure with Charger / Power Supply

DS-PWR-S  
DS-PWR-M  
DS-PWR-L

Solutions for a new era of Access Control

## General Features:

## Model Description

Small Size Metal Enclosure

**DS-PWR-S**

Middle Size Metal Enclosure

**DS-PWR-M**

Large Size Metal Enclosure

**DS-PWR-L**

### Features

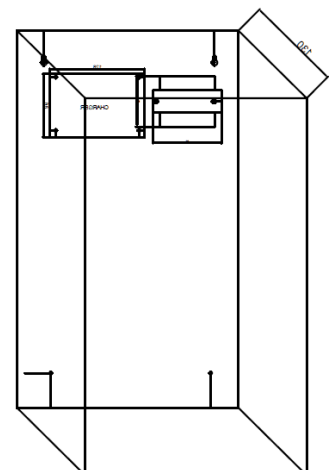

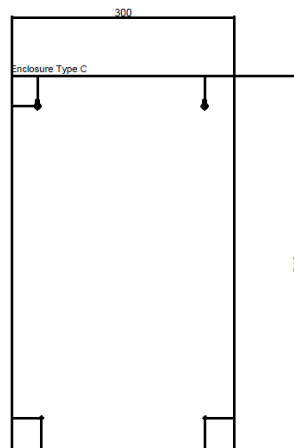

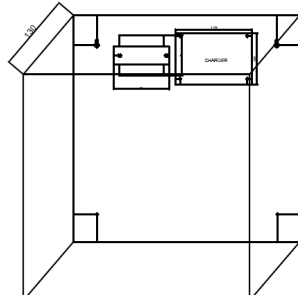

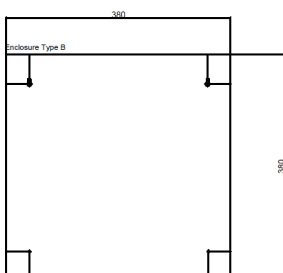

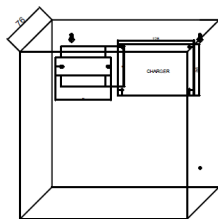

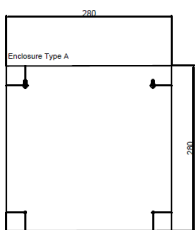

The size of the enclosure is determined by the minimum and/or maximum dimensions of the application.

When selecting the size, please consider whether further components are likely to be added at a later stage and, if so, whether the dimensions of the enclosure will still be adequate. We have a wide range of sizes available for our standard enclosures.

In addition to these, we can create solutions with customer-specific sizes. The manufacture of steel enclosures with customer-specific dimensions is cost efficient, even in small quantities.
