

VN-TH02

Blackbody

Features

- Supports body temperature calibration of thermal device in high accuracy
- High accuracy and good stability
- Strong ability of anti-interference

Specifications

| | |
|------------------------|-----------------------|
| Model | VN-TH02 |
| Temperature Range | +30°C~45°C adjustable |
| Radiation Area Size | 80 x80mm |
| Temperature Resolution | 0.01°C |
| Temperature Accuracy | ±0.1°C |
| Temperature Stability | ±(0.01) °C/30min |
| Effective Emissivity | 0.95±0.02 |
| Working Environment | 0~40°C |
| Dimension | 120x 120x153mm |
| Power Consumption | ≤25W |
| Power | DC12V (±20%) |
| Weight | 1.05KG |
